Please amend the Title to read:

**A METHOD OF MOVING A CARBON NANOTUBE**

Serial No.: 10/789,390    Amendment to Specification  
Art Unit: 2874

Please cancel the present Abstract and substitute the following new Abstract, as follows:

A method of moving a carbon nanotube which is attached by one end thereof, to a junction on a substrate. The method comprises applying a charge to the carbon nanotube, and providing a repelling force to an adjacent structure from the carbon nanotube to which the charge has been applied.
